

## The Safest Osmocote Ever

**Osmocote Exact** combines safety, consistency, longevity and patterned release. This 3rd generation of controlled release fertilisers allows real control over the nutrient supply to the plant as the release of nutrients is matched by the plant's needs due to patterned release.

## Osmocote® Exact Lo-Start (16-18 Month)

Controlled release fertiliser which combines safety, consistency and patterned release.

### PRODUCT COMPOSITION

- 15-3.5-9.1 + 1.2Mg + TE

### PRODUCT BENEFITS

- Safety: highest possible safety, controlled release and high level of all essential trace elements. Color-coded for longevity to avoid mistakes.
- Consistency: very consistent product, every bag of product gives identical results, excellent quality control exceeding all industry standards.
- Patterned release: available in various release patterns exactly tailored to the crop requirements, to provide optimal plant growth.
